

## NEW TEACHERS FOR THE LOCAL SCHOOLS

Several Announce They Will go  
Elsewhere This Fall.

The Annual Election Will Be Held  
Tuesday Night by the Board  
of Education.

AT LEAST 8 VACANCIES TO FILL.

The election of teachers for the public schools, which will be held next Tuesday night, will result in a number of new names being placed on the rolls, as several of the present teachers have announced that they are not applicants for reelection, and will end their services in the local schools at the end of the present term.

The teachers are all interested in the election and are glad it will take place next Tuesday, instead of the first week after the close of school.

The board does this in order that teachers may know that they are to remain and to give those who secure positions in the schools an opportunity to arrange for attending the local normal training school or to leave Paducah to attend one somewhere else.

Those who have thus far decided not to remain in Paducah, almost all of whom are teachers from other cities, are:

Prof. Sullivan, scientific department; Miss Anna Bird Stewart, teacher of English; and Miss Winifred McGugin, all of the High school; Miss Nannie McCullom, Seventh and Eighth grades in High school building; Miss Carrie Merritt, Seventh and Eighth grades, Washington building; Miss Angeline Bowles, primary department, Washington building; Miss Elizabeth Urmon, primary department Franklin building; and Prof. M. V. Miller, Littleville school.

The above teachers will return home for the summer and have other places in view which they probably like better than the Paducah schools. Miss Stewart will probably teach near Cincinnati, her home.

The board has many applications for places, many being from men and women high in educational work, and the places will be filled with the best material possible to secure.

Review work will begin in Paducah public schools in a short time, and pupils will be taken over the entire work they have done the past term, preparatory to the tests given at the close of the spring term. Great interest can be seen in the work and there is a general bustle seen in all buildings.

### BARN BURNED.

Illinois Man Suffers Heavy Loss  
From Bolt of Lightning.

Last night during the thunder storm a fine barn belonging to Geo. Dierline, of Temple Hill, Ill., twenty miles from Paducah, straight across in Illinois, was struck by lightning, and his stock and everything else in it were burned.

There were in the barn six head of stock and a large quantity of food and such things. The total loss was about \$2500, with no insurance.

### Engine Repaired.

Capt. T. S. Shaw and son Tom, returned Sunday from Paducah with engine No. 10 of the Cadiz railroad, where it has been in the shops for the past three weeks. A new tender and other repairs were put on it. Capt. Shaw, who is chief engineer on the road, was in Paducah and assisted in the repairs of the engine.—Cadiz Record.

## DOPES UP AGAIN

MAYFIELD TELLS OF PREPARATIONS TO BUILD "CUT-OFF."

Civil Engineers Are Moving About in a Mysterious Way in the Locality of This New Work.

Mayfield is having another revival of those "cut-off" visions, and is preparing for the "stealth" line to cut Paducah from the main line of the I. C. and put us on a "Jerk-water" line. Here is what yesterday's Messenger says:

Gilbertsville, Ky., May 4.—Several prominent engineers, of the I. C. or some other company have arrived here for the purpose of surveying a route between here and Mayfield. The big new bridge at this place will be done in about six weeks. It is made large, strong and broad, wide enough for two tracks one track has already been laid so far as the bridge is completed on the upper side of the bridge.

There is no doubt but what an air line will be built from here to Mayfield. The immense business of the road will force this cut off to be built. This new line across Marshall and Graves will open up a new section of country and will greatly increase the values of farming lands besides at least two good towns will be built up along its line. It will not be many months before hundreds of men will be at work on the new line.

The Messenger itself says: "The I. C. surveying party moved Thursday to the eastern part of the county where a route is being made on the Gilbertsville 'cut off.' The route that is being made now is said to be the same as surveyed about 30 years ago. Wednesday the surveying party passed through a strip of land where an aged lady was planting potatoes and she wanted to know if the railroad would be built before she got through."
